***Claim Rejections - 35 USC § 103***

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 86-104 are rejected under 35 U.S.C. 103(a) as being unpatentable over Curry in view of Pugh.

See the appropriate paragraph of the 12/1/03 Office action for the teachings of Curry in view of Pugh.

The cited prior art is silent to the claimed volume of sample tested.

The court decided In re Yount (80 USPQ 141) "... that mere size is not ordinarily a matter of invention....". Additionally, the court decided In re Rose (105 USPQ 237) "... the size of the article under consideration which is not ordinarily a matter of invention ...".

It is desirable when creating a personal test device to use as small of a sample size as possible to minimize the discomfort of the user while obtaining the sample. It would have been within the skill of the art to further modify Curry in view Pugh and use a sample volume between 0.1-0.5 microliters to gain the above advantages and as the size/volume is not ordinarily a matter of invention.

***Response to Arguments***

Applicant's arguments filed 9/13/07 have been fully considered but they are not persuasive.

Applicant states the instant invention is not "ordinary" and has advantages that are different from the cited prior art. The court decided *In re Kemps*, 97 F.3d 1427, 1430, 40 USPQ2d 1309, 1311 (Fed. Cir. 1996) "explaining reasons to combine prior art references does not have to be identical to the of the applicant to establish obviousness." The Office maintains the reasons for making the combination do not have to be the same as Applicant's. The cited prior art has been properly applied against the instant claims.

Applicant's state several patents have some bearing on the instant claims. For proper consideration, Applicant must cite the reference on a PTOL-1449 and comply with 37 CFR 1.97. In the absence of properly submitting these patents for consideration and a more explicit discussion of the relevancy of these reference to the pending claims, the Office cannot further comment.

An examination of this application reveals that applicant is unfamiliar with patent prosecution procedure. While an inventor may prosecute the application, lack of skill in this field usually acts as a liability in affording the maximum protection for the invention disclosed. Applicant is advised to secure the services of a registered patent attorney or agent to prosecute the application, since the value of a patent is largely dependent upon skilled preparation and prosecution. The Office cannot aid in selecting an attorney or agent.

A listing of registered patent attorneys and agents is available on the USPTO Internet web site <http://www.uspto.gov> in the Site Index under "Attorney and Agent Roster." Applicants may also obtain a list of registered patent attorneys and agents

located in their area by writing to the Mail Stop OED, Director of the U. S. Patent and Trademark Office, PO Box 1450, Alexandria, VA 22313-1450

***Conclusion***

This is a continuation of applicant's earlier Application No. 10/038,263. All claims are drawn to the same invention claimed in the earlier application and could have been finally rejected on the grounds and art of record in the next Office action if they had been entered in the earlier application. Accordingly, **THIS ACTION IS MADE FINAL** even though it is a first action in this case. See MPEP § 706.07(b). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no, however, event will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
